## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 and 8, drawn to an extract of Pulsatillae radix, classified in class 424, subclass 773 for example.
- II. Claims 6-8, drawn to an agent comprising 3-O- $\alpha$ -L-rhamnopyranosyl((1 $\Rightarrow$ 2)-[ $\beta$ -D-glycopyranosyl(1 $\Rightarrow$ 4)]-  $\alpha$ -L-arabinopyranoside, classified in class 548, subclass 432 for example.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are distinct in structure and function. Group I is specifically drawn to an extract of Pulsatillae radix which will necessarily include many phytochemical constituents which are not required by Group II. The inclusion of the numerous phytochemicals in Group I would necessarily affect the medicinal efficacy of

Art Unit: 1654

the composition as compared to Group II. Each Group has different modes of operation, different functions, and/or they have different effects. The search for each of the above inventions is not co-extensive particularly with regard to the non-patented literature search. Further, a reference which would anticipate the invention of one group would not necessarily anticipate or even make obvious another group.

Because these inventions are distinct for the reasons given above and the search required for each Group is not required for the others, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia Leith whose telephone number is (571) 272-0968. The examiner can normally be reached on 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on (571) 272-0968. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
